 - WARNING:

Tvg_usage

- Not all computer has same encoding system; if it's not 'utf-8', the Checked button will be unabled
- Do not save to pdf with strikethrough rows, because the result will be unsatisfying
- Better use Delete function to clear-up unwanted rows (always backup beforehand)
- [Control+0] = Space button
 - The function mostly used on background (for displaying purpose)
 - Not much of a use at this point
 - Helpful for clearing chosen highlighted row in list box
 - Helpful for avoiding any mistaken editing
- [Control+minus = ('-')] = Clear Hide
 - Unhide collections of hidden parent one at a time
 - Can delete the whole json file so that appear all at once
- [Control+Left/Right/Up/Down]
 - To move the app windows to user's liking position
- [Shift+Up/Down]
 - To scrolling up and down the text window and list box at the same time
